WARRANTY

■ Warranty period

The warranty period commences on the date of first registration. MG covers your new MG for 84 months or 150,000 km (whichever comes sooner). The warranty transfers to each new owner so long as it hasn't expired.

To access a detailed parts and warranty statement please see the appropriate countries' MG website. For Turkey, please see <https://www.mg-turkey.com/>.

To access a detailed parts and warranty statement please see the appropriate countries' MG website. For Europe, please see www.mgmotor.eu

SERVICE INTERVAL PLAN

The maintenance plan recommended in the manual is the optimum maintenance cycle based on the test operation conditions. “Regular Maintenance Plan” or “Special Maintenance Plan” shall be carried out according to integrated factors such as domestic road conditions and driving conditions.

■ Regular Maintenance Plan

- Preconditions applicable to this plan

The vehicle is consistently operated with the passenger and luggage loading within the limits laid down in the Owner's Manual;

The vehicle is driven on appropriate roads at speeds within the limits allowed by law;

The recommended fluids are always used.

- Maintenance types

The Regular Maintenance Plan is composed of Type A and Type B Inspection services. The two types are carried out at the intervals described as below.

Maintenance type	A	B	A	B	A	B	A	B
Distance (x 1,000 km)/Time (months)	15/12	30/24	45/36	60/48	75/60	90/72	105/84	120/96

Note: Amount of kilometer or month (whichever comes sooner).

- Regular Maintenance Items

SERVICE INTERVAL PLAN

No.	Maintenance Item	Service Type	
		A	B
Vehicle Interior and Exterior			
1	Check the function of the parking brake and adjust it as necessary.	●	●
2	Check operation of lamps, horns and system warning indicators.	●	●
3	Check operation and accuracy of windscreen wipers, washer and windscreen for damage - if the washer nozzles are adjustable, adjust them if required.	●	●
4	Check the condition and function of seat belt.	●	●
5	Check operation of A/C.	●	●
6	Replace air conditioning filter.		●
7	Check the condition and function of seat.	●	●
8	Check the condition of bonnet safety catch, tailgate/boot lid lock, door locks, hinges, door checks, etc., clean off dirt and debris and apply lubricating grease as necessary.	●	●
Front Compartment and Boot			
1	Check the connection and status of 12V battery	●	●

SERVICE INTERVAL PLAN

No.	Maintenance Item	Service Type	
		A	B
2	Check the washer fluid level and top up as necessary.	•	•
3	Check the brake fluid and top up as necessary.	•	•
4	Check the transmission fluid levels, and add to the standard level as necessary.	•	•
5	Check the condition of cooling system hoses, pipes and connecting parts, radiator, cooling fan and clean the relevant surfaces if necessary.	•	•
6	Check the level and concentration of coolant, top up as necessary.	•	•
7	Check the condition of engine intake manifold.		•
8	Check the condition of auxiliary drive belt.	•	•
9	Check condition and operation of the air conditioning system, such as compressor, pipelines, condenser, etc., and clean relevant surfaces if necessary.	•	•
10	Check the condition and operation of the brake booster.	•	•
11	Replace engine air filter.		•
12	Check the engine mounting bracket.		•

SERVICE INTERVAL PLAN

No.	Maintenance Item	Service Type	
		A	B
13	Check the harness for correct routing, interference, wear or damage.	•	•
Under Vehicle			
1	Replace engine oil and oil filter.	•	•
2	Check the engine and transmission for oil leakage.	•	•
3	Check the condition and security of engine exhaust system, brackets and heat shields.		•
4	Check the condition of fuel pipes for bending or leakage.	•	•
5	Check evaporative emission system such as pipes and charcoal canister etc.		•
6	Examine front and rear brake pads, discs and calipers for wear and damage. Replace if necessary.	•	•
7	Check brake pipes and hoses for condition and security. Ensure that hoses are not twisted or kinked.	•	•
8	Check the wheel bearings and drive shaft gaiters for security and condition.	•	•
9	Check the suspension and steering system for leakage or wear.	•	•

SERVICE INTERVAL PLAN

No.	Maintenance Item	Service Type	
		A	B
10	Check tires for tread depth and signs of damage, deformation or uneven tire wear, including the spare tire (if equipped). Check the four-wheel alignment data and perform front and rear wheel rotation as appropriate.	•	•
11	Check tire pressures and adjust as necessary, including the spare tire (if equipped).	•	•
12	Check chassis and underbody bolts and nuts for damage and security, replace them as necessary.	•	•
After Maintenance and Repair			
1	Use diagnostic software to reset maintenance interval indicator. Check and clear fault codes and check operation status of the control systems.	•	•
2	Check software version of electronic control units and upgrade to latest version if available.	•	•
3	Carry out the road test, and check the operation and function of powertrain, brakes, steering and other systems.	•	•

SERVICE INTERVAL PLAN

- Special Maintenance Items

No.	Item	Service Interval (whichever comes sooner)
1	Ancillary drive belt	Replace every 3 years or 90,000 km
2	Manual transmission fluid	Replace every 90,000 km
3	Automatic transmission fluid	Replace every 90,000 km
4	Brake fluid	Replace every 2 years
5	Coolant	Replace every 4 years or 90,000 km
6	Fuel filter (integrated in fuel pump)	Replace every 8 years or 90,000 km
7	Spark plugs	Replace every 45,000 km
8	Airbag assembly and seat belt pretensioner(if equipped)	Suggested to be replaced every 10 years for driving safety
9	Panoramic sunroof - Guide for panoramic sunroof maintenance - Use grease recommended by the manufacturer regularly for its maintenance. Or consult MG Dealer if the vehicle is often driven in dusty or sandy areas.	

■ Special Maintenance Plan

- Conditions

The special maintenance plan applies when the vehicle is consistently operated under any of the following conditions.

- Mainly single journeys of less than 8 km each.
- In heavy, stop start traffic where the car is at idle or very low speeds for most of the time.
- Often driven in temperatures below 0 °C or above 30°C.
- Often undergoing rapid acceleration or deceleration, or driving at high speeds.
- Often driving in sandy and dusty conditions.
- Often parked or stored in a humid environment or driving on a road with water accumulation.
- Driving in mountainous areas.
- Used for special purposes such as a taxi, police car or load carrying transport.

- Items

1. If the vehicle is driven under the condition of short distance, at idle speed for long time or dusty areas, engine oil and oil filter should be replaced every 5,000 km.
2. If the vehicle is driven in dusty or sandy areas, check the engine air filter and air conditioning filter every 5,000 km, and replace it as necessary.
3. Brake fluid should be replaced every 40,000 km or once a year (whichever is sooner), if the car is mostly driven in mountainous or hilly areas and the brakes are in constant use, or often driven in wet or humid environments.
4. Brake pads and discs should be checked more frequently if the car is mostly driven in mountainous or hilly areas and the brakes are in constant use.

SERVICE INTERVAL PLAN

5. Carry out the inspection items in the Type B column every time the vehicle visits the workshop for maintenance , or consult an authorised MG Repairer.

SERVICE RECORD PAGES

The following pages provide a complete record of the routine services.

This information is important and could affect your warranty entitlement. Always make sure that the appropriate page of the Service Record is stamped and signed on the completion of each service visit.

REPLACEMENT MAINTENANCE BOOK

When the final service record entry has been completed, you should order a replacement document from your MG Motor Repairer or suitably equipped service centre in order to continue keeping an accurate record of your car's service history. Remember to transfer the details recorded under 'Vehicle Details' to your replacement book.

In most countries it is a requirement that owners be notified of safety defects that are the subject of a recall campaign for rectification, and are provided with information concerning the action they must take.

In the event of a recall campaign affecting your car, you will be contacted and invited to have your car inspected free of charge.

If you suspect that your car has been missed by a recall campaign you should contact an MG Authorised Repairer or suitable service centre for advice. Details of any work carried out on your car under a recall campaign will be recorded on this page.
