Notes: The Map Data Version is shown as 'HERE_EU_**VERSION** XXXXXXXXXXXXXX. The version in the example above is '20Q1', which means this is the 2020-Q1 version. If the Map Data Version in your car differs from the one displayed on MG Motor's website, then it requires an update.

2. UPDATE

2.1 Prepare a USB drive

- 1. Make sure the USB drive has 15-20GB of space
- 2. Click here to download the latest map data version
- 3. Extract the map data from ZIP file > Put the **Maps** folder

in the root directory of the USB drive.
